Re: Lawn and Garden Tools – Help Keep the Parkways Clean

The Board of Directors is pleased to announce lawn and garden tools are now available for residents to use in an effort to help keep the parkways clean. If anyone is interested in volunteering their time to assist in grounds maintenance, just contact the Board of Directors or Property Management and we'll be happy to assist.

This past weekend the parkways were thoroughly raked to remove all the debris and pet waste. The lawn and trees were watered and the common elements were sprayed clean.

It is our hope that everyone will help keep Vanguard Lofts clean and green!
